**Advanced Series Basic System**

**Standard Features**

- All units feature lightweight aluminum construction with durable powder-coat finish. All hardware is zinc plated for corrosion resistance. Every unit features tool-less® setup and adjustment.
- "First-time setup requires some tools and assembly.

---

**Durable Basic Winch® Features:**

- Ratchet braking mechanism with dual pawl design and load limiter clutch for added safety (1).
- Constantly engaged friction brake holds load securely at any position, min. 10 lbs of force required.
- Heavy duty handle assembly resists handling damage.
- Cable retaining spring assembly prevents cable damage and assists even winding.

**Advanced Series Basic Davit Arm Features:**

- Convenient 5000 lb. anchor point for fall protection devices when required (2).
- Overload detection ensures added safety by visually identifying a fall or misuse (3).
- Optional nylotron dust jacket (4) protects your investment.

**Advanced Series Basic 3-Armed Base Includes:**

- Lightweight collapsible base, provides ease of storage and transportation. Advanced Basic base weighs only 34 lbs (15 kg).
- Non-slip rubber foot pads conform to working surface (5).
- Single adjustment screw for mast offset and leveling base (6).

*Note: Basic series winches must be returned to the manufacturer or its authorized representative for inspection and re-certification annually.

---

**Simple 3-Step Setup**

1. **Extend davit arm to required extension**
2. **Control davit arm offset by adjusting the single base screw leg**
3. **Load indicating snap hook**

---

**Flexible Basic Winch**

- Very Lightweight
- Easy Handling
- Synchronized Braking Pawl Mechanism
- Sealed Drum Components
- Anchorage Connector Included
- Meets CSA Z259.2.2 type 2, ANSI Z359.1, OSHA

**With Stainless Steel Cable**

- 17005 saveU SRL c/w 50’ x 3/16” Cable Assembly
- 17140 saveU SRL c/w 75’ x 3/16” Cable Assembly
- 17007 saveU Bi-Directional SRL c/w 50’ x 3/16” Cable Assembly
- 17141 saveU Bi-Directional SRL c/w 100’ x 3/16” Cable Assembly

**With Galvanized Steel Cable**

- 17005 saveU SRL c/w 50’ x 3/16” Cable Assembly
- 17140 saveU SRL c/w 75’ x 3/16” Cable Assembly
- 17007 saveU Bi-Directional SRL c/w 50’ x 3/16” Cable Assembly
- 17141 saveU Bi-Directional SRL c/w 100’ x 3/16” Cable Assembly

---

**Flexible Basic Winch Accessory**

- 10222 UCL Quick Mount Bracket with Flat Back
- 17429 Basic Winch Assembly Includes zinc plated Basic Winch and Quick Plate Adapter
- 17100 50’ working length of 70’, 3/16”, 7 X 19 Stainless Steel Cable w/load indicating snap hook
- 16838 50’ working length of 70’, 3/16”, 7 X 19 Stainless Steel Cable w/load indicating snap hook

---

**Work Positioning Chair**

- Made from super-strength polyamide webbing (4050 lbs / 18 kN).
- Seat constructed of neoprene rubber / plywood.
- Lightweight, 8.5 lbs (3.8 kg), has capacity of 310 lbs (141 kg) max.
- Tool pockets and rings included.
- Easy to assemble system with useful foot support.

---

**Carrying Bag**

- No matter what accessories, the hoist separates for easy carrying. Plus, it’s lightweight, weighing only 58 lbs (26 kg), not including winch and SRL.

---

**Flexi Ladder**

- Features
  - Made from super-strength polyamide webbing (4050 lbs / 18 kN).
  - Seat constructed of neoprene rubber / plywood.
  - Lightweight, 8.5 lbs (3.8 kg), has capacity of 310 lbs (141 kg) max.
  - Tool pockets and rings included.
  - Easy to assemble system with useful foot support.

---

**Parts List**

- **Part # Description**
  - 16294 10’ Webbing Ladder Section
  - 16297 Set of 3 Connecting Links
  - 16316 Hanger Plate Assembly for Web Ladder System
  - 16295 Bag to hold up 30’ of Webbing Ladder (Not Shown)

---

**Accessories**

- **saveU Self-Retracting Lifeline**
- **Flexi Ladder**
- **Work Positioning Chair**
- **Carrying Bag**
- **UCL Sleeve Adapter**
