

3 Easy Installation Steps

**Drill It
Set It
Clip It**

A Revolutionary Safety System

Safety Net Fall Protection Systems For Scaffolding, Wall Openings, & Rack Guards

Reasons to choose the SafeNet System

- Provides “complete” fall protection from floor to ceiling.
- Exceeds OSHA Standards.
- Eliminates gross negligence.
- Most affordable guardrail system.
- Universal application.
 - Concrete
 - Wood
 - Steel
 - Scaffolding
 - Warehouse storage racks
- Lightweight, easy to transport, install, and store.
- Removable & Replaceable straps.
- Nets are reusable and construction durable.
- Made from environmentally friendly material.
- When used properly, **Eliminates Fall Exposure**
- Potentially lowers high workers compensation premiums.
- Reduce material handling & costs, by eliminating excessive planking on scaffolding.
- Exceeds OSHA debris barrier requirements.
- Custom sizes available

**MADE IN THE U.S.A.
PATENT PENDING**

Cocoon your workers inside the scaffolding system

Protect your steel openings from top to bottom.

Cocoon your workers inside the building

Toeboard accessories available

Don't just take our word for it....

“This new system is the best guardrail system that I have seen. Because the SafeNet System engineers out the exposure and fall hazard.”

David Kelley
President
Safe-Site, Inc.
Construction Safety Consultant
239-992-5057

“Your rack guard nets did exactly what they were purchased for.... to protect our employees from potential falling material. Last month a battery slipped off one of our high rise pallets and was caught in the netting, protecting employees from a potential serious injury.”

Don Chopchinski,
Area Manager
Johnson Controls, Inc.
Battery Manufacturing
813-971-1085

“Over the past year, the SafeNet System has helped eliminate fall exposures, enhanced safety awareness, lowered our workers comp premiums, and increased production. Our workers now feel safer working on enclosed scaffolding, and don't have to think about potential fall exposure.”

Jeff Walls
President
Schear Corp.
Stucco, Drywall, & Metal Framing Contractor
